BUSINESS SUITE · STOCK AND SELLING

Inventory & Till

Stock in every store and warehouse, buying from suppliers, and a till that keeps selling when the internet drops.

WHO IT'S FOR Shops, wholesalers and small chains that need to know what they have, where it is, what to buy next, and to sell it.

Offline
till keeps selling; sales upload when back online

Live
stock per store and warehouse, with full history

23
modules, every one on every plan

WHAT IT DOES

—Know your stock

- **Products** — variants, bundles, pack sizes, barcodes, cost and sale price, tax, photos and labels; CSV import.
- **Stock** — live quantity per location and every movement, with who made it; transfers and counts.
- **Serial and batch numbers** — serials per piece, batches with expiry dates, earliest expiry first, expiry alerts.

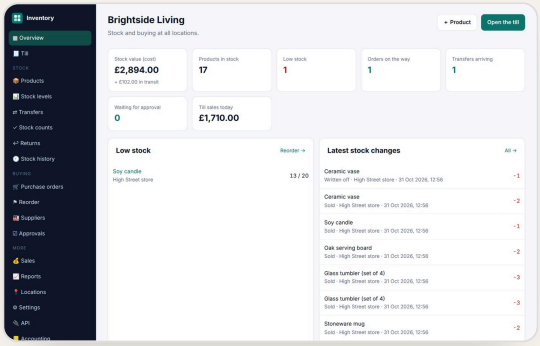
—Buy and sell smarter

- **Purchase orders** — approval above a value you set; receive in full or in part; supplier price lists from CSV.
- **Reorder suggestions** — what to buy and from whom, from reorder levels and what is on order.
- **Sales orders** — quote, order with stock held, part shipments, backorders and invoice.

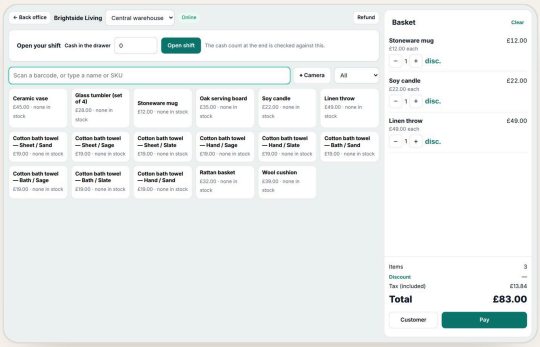
—Sell at the till

- **Till (POS)** — barcode scanning, split payments, gift cards, park and recall, cash in and out, manager PIN for big discounts and refunds.
- **Prices and offers** — customer price lists; % off, money off and buy X get Y promotions with dates.
- **Offline, receipts and reports** — works offline on a tablet or phone; tax invoices; sales, tax and slow-stock reports.

INSIDE THE APP



Stock overview



The till on a tablet

Works with

Only connections that exist in the app today; "being set up" ones are switched on as soon as they are approved.
